## DESCRIPTION OF DRAGONFLY 28 PERFORMANCE

---

This is a great opportunity to acquire an almost new Dragonfly 28 Performance from 2022. The boat is well equipped and ready for new adventures. Quorning Boats has been building high-quality multihull boats since the early 1980s. Since 2009, when the Dragonfly 28 was launched, Quorning Boats has continued to refine the Dragonfly 28 model to what is now a very high level of refinement. The boat's sailing performance has been proven on the racecourse, something that obviously translates to exhilarating rides also while cruising. The entire boat is built to a high international standard. Everything onboard, from fittings to other equipment, is from well-known suppliers of high quality.

The boat has, as standard, a high level of equipment. Additional equipment on this boat includes a fixed autopilot mounted directly on the rudder stock, and a fixed fuel tank.

Below deck, you will find a smart and beautiful interior design that optimally utilizes the volume of the entire boat. Everything from a well-equipped galley to a toilet, 4 fine berths, and good storage space, can be found on the Dragonfly. The boat has a complete set of sails for both racing and cruising, which on the Dragonfly 28 Performance translates to very efficient family sailing.

Dragonfly 28 Performance is really a boat lending itself to fantastic sailing and new adventures. If you want to explore beyond your more familiar sailing grounds, you can easily trailer your boat somewhere else, and suddenly you are sailing in new waters. This opens-up for sailing on lakes, otherwise not accessible.

The possibility to transport the boat on its own trailer makes it possible to spend a few weeks in the Mediterranean, or a few weeks in the Baltic Sea, or in the North Sea, all within one season if desired. With the boat on its own trailer, there is less dependency on "time to transport" and/or costly truck transports via road and ferry. Being able to trailer the Dragonfly 28 Performance on its own trailer is really freedom to explore and enjoy without limitations.
