Engines: Volvo Penta TAMD 41 (from 1993)

Engine No: 2204145240

Shaft with 4-blade propeller, hydraulic revers

General description:

Altena is built in the Netherlands, the country that for many years has built a reputation in the marine industry for building high quality boats in steel. And this Altena 49 from Altena Yachting is no exception.

This is a well maintained and updated boat in overall good condition where the present owner, with his background as a marine engineer in commercial shipping, has taken pride in keeping the boat in good shape, which not least is reflected in the engine room. Receipts are available for a resent EUR 15,000 engine refit.

A boat that, with its spaciousness and good layout, both below deck with the raised saloon with 360-degree views, and with direct access to the large teak covered and protected aft deck, as well as stairs to a large flybridge, invites you to long stays on board.

The list of equipment is based on information supplied by the owner. Any equipment in addition to what is listed above is at the seller's discretion.
