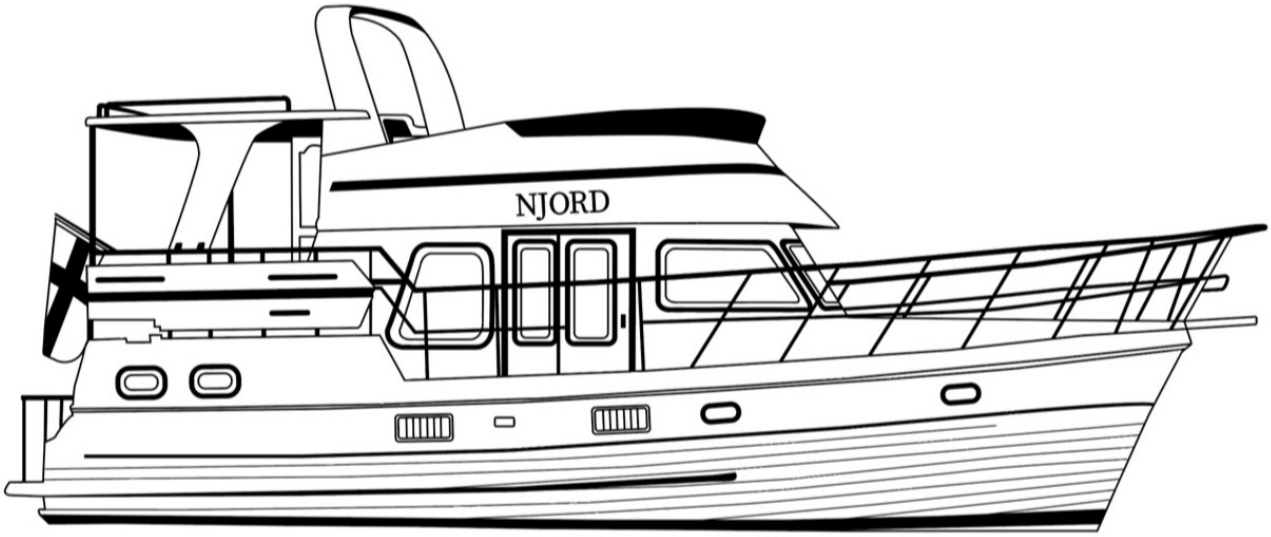
Sea Stella 40 Sundeck
12.20 x 3.75 x 1.35 m
14500 kg full tanks
Year of construction 2008
2 x Volvo Penta D4 180i
Engine hours 1450

Material Fiberglass

Teak deck on fiberglass
Cruising speed 6-7 knots
Top speed 9 knots
CE cat B
Diesel 1150 l
Water 600 l
Septic tank 197 l



Anchor system & equipment

Windlass Vetus Napoleon
Deck controls new 2025
External control in the wheelhouse with Vetus CCM chain counter
50 m chain
20 kg stainless steel CQR anchor
Mantus S3 Anchor swivel new 2024
Deck washing outlet by the windlass with hose

Electrical systems Batteries

Batteries has been updated and no battery is older than 2022
Engine batteries 2 x 105 Ah AGM starter batteries

Bow thruster and Stern thruster each 105 Ah AGM batteries also connected to the Starter battery bank in parallel
Onan generator 1x 95Ah AGM starter battery
House battery bank 4 x 100 Ah Lifepo4 batteries with built in BMS and Bluetooth app new 2023/24/26

Inverter Victron System

Completely new setup built during 2 seasons 2023/24
Shore cable with Euro 16 A connector and adapter for standard 240 outlet, 50 A connector on boat side.
Galvanic isolator Victron 32 A
20 A panel breaker
Victron Multiplus II 3000VA/120A Charger/inverter with breaker switch
Earth leakage protector on both 240 volt lines, AC out 1 and 2

Victron System chargers, shunt and power distribution

Completely new setup built during 2 seasons 2023/24
Suntree solar panel 2 pole breaker
Solar regulator Victron MPPT 150/100 VE Tr can
8 x 100W solar panels installed in 4P2S configuration on rails, on top of the sundeck
2 x Victron Orion XC 50 DCDC chargers for alternator charging of the Lifepo4 batteries
Victron Lynx 1000 distributor with fuses
Victron Lynx shunt with main battery switch
Victron Lynx IN with a T-class fuse
Sunwind 4 x 100 Ah Lifepo4 batteries with MRBF fuses on the terminals.
Extra fan installed regulated by the Multiplus when it calls for cooling.

Engine room electrical system

Starter batteries switch stb and port
Starter batteries emergency connect switch
Generator starter battery switch
Inverter switch
Bow thruster battery connection switch
Stern thruster battery connection switch
BSCO fire prevention system connection box
Main connection for battery minus
2 in to 3 out battery combiner unit
Dolphin 12V 40A Battery charger 3 out for shore power charging of Starter batteries
12V/24V converter to run the Webasto heater

Electrical systems generator

Generator Onan MDKBL 7.0 kw 255 hours run time- 5778728 serial number J060982690
Remote on off panel at helm station, off button is not functional, replaced with magnet

Electrical system panel and monitoring etc

Victron Cerbo GX with a GX touch 7” monitor for total control of batteries and automatic functions like pump starting, connected to internet via router and controllable via Victron VRM online at any location
AC DC panel by BEP marine

AC1 is always on with inverter on or shore/generator power
AC2 is only on with shore/generator power or if house battery bank is full and excess solar is available, dump load to hot water cylinder
Automatic fuses/ breakers but also a few fixed fuses for lanterns, pumps etc
Ruuvi Tag x 2 for fridge freezer bluetooth monitoring on the Cerbo

Hydraulic system steering

Hydraulic steering main helm and flying bridge
Raymarine Smartpilot with pump ,S100 remote control for the flying bridge and fixed instrument at the main helm station.

Navigation system & equipment

New Axiom system 2026, Plotters, Radar, Raynet, SeaTalkNg
Raymarine AIS700 com via SeaTalkNG (nmea2000) new 2024
Raymarine Axiom 9+ Rv at main helm, Axiom 12+ on flying bridge connected to RayNet
Raymarine radar quantum 2 connected to RayNet
Depth and temp gauge airmar
Raymarine rudder position indicator
Raymarine 63 VHF at helm station com via SeaTalkNG (nmea2000) new 2019
Raymarine extra handset on flying bridge new 2019
Simrad HH36 handheld VHF new 2020
Motorola TLKR T60 2 x Com radios
Raymarine Smartpilot with S100 remote control and fixed ST6002 instrument at the helm station.
Horn at helm and flying bridge
Gps in each Raymarine axiom unit
Raymarine RNS5 raynet switch
Raymarine SeaTalkNG converters etc nmea2000
Rear view Camera mirror at the helm station
Navigation lights
Automatic anchor light connected to the Victron MPPT
Binoculars

Sanitary system

Front and aft toilet, SeaLand 8800 series, electric
Toilet system is fed by the deck washer pump
Front head Shower integrated in sink tap
Af head Shower cubicle with shower mixer
Sink, tap
Drain pump/shower boxes x 2
Vetus Electric membrane black water pump for ocean pump out

Galley equipment

Everything you need to go immediately, pots, pans, cutlery, you name it and it’s there for long cruises
Fridge/freezer Dometic 10.5 new 2023
Cooker, 4 zones Smeg lpg new 2019 with 2x6 kg lpg bottles stored in the anchor box with free air run out
Dometic CK200 kitchen fan with filter
LG Magnetron, grill 240 v

Sink, tap for fresh water and also a tap for seawater
Lots of storage
Philips Cafe gaia brewing machine 240v
Water boiler 240v
Toaster 240v
Vetus WH31 Hot water cylinder 30 l with thermostatic mixing valve 240v and engine

Steering & rudder system

Vetus Bow and stern thrusters 55 kgf with dual control at helm and flybridge stations,
Vetus waterproof foot controls on foredeck
Teleflex 1250V Hydraulic steering
Sea Star hydraulic steering ram
Wheel stainless on the flying bridge teak at the main helm
Rudder position indicator
Rudder limiters
Hydraulic pump
Bennet Trim tabs are installed but controls has been removed from the helm station, they are not usable on this boat but are there If there is a wish to reinstall. The trim tabs are still on the hull as stabilisers and set to max up position.

Technical system & installation

Water installation with pump and water pressure tank 2 l new 2024-25
Drinking water tank 600 l under the bed in the state room
Diesel installation with electric valves
Diesel fuel tanks 2x575 l total 1150 l
Black water installation, both analog and Bluetooth meter for connecting to the Victron and Raymarine systems
Black water tank 197 l with drain pump for deck or ocean emptying
Vetus WH31 Hot water cylinder 30 l with thermostatic mixing valve
Shower outside on swim platform
Engine room ventilation 2x Electric fan
Engine room temp sensor connected to the Cerbo system for automatic exhaust fan activation

Heating, aircon system

Central heating with Webasto Airtop 5000 diesel, central thermostat and room fan control
Dometic Cruisair Air conditioning units in a split system with 2 cooling units 5000 Btu. One unit for the forward guest cabin, galley and cockpit, and the other for the master state room

Propulsion machinery

Volvo Penta D4 180i-B x 2 snr. 2004018165 & 2004018164
Gear box, hydraulic
Coolant filter
Racor 75/900MAX Fuel filter x 2
Fuel valve electric
Shaft straight with PSS shaft seal new 2022
Port engine coolant heats the hot water cylinder
Alternators Mitsubishi 120A
Spare filters, impellers, oils etc

Covers

Cover for the aft outdoor area, professionally cleaned and put in a bag, never used since 2019
Bimini top with new protective cover
Light Night cover with easy fix straps and 3 stay rods new 2024
Heavy winter cover to protect from dirt during winter storage
Window cover for windows in front of main helm

Underwater hull

Antifouling International copper hard racing east coast
Propellers, 5-blades
Propeller shaft 50 mm
Propeller shaft bearings
P-brackets
Bow thruster 55 kgs, replaced 2019 and reseated 2023
Stern thruster 55 kgs
Rudders
Anodes on axles, rudders, under hull stern new 2026

Hull, deck, deckhouse, superstructure

Teak on decks
Gelcoat white
Guardrail, pushpin, pulpit, stainless steel very robust
Windows, portholes, hatches stainless with opening hatches and mosquito nets
Diesel tank caps stainless steel
Water tank cap stainless steel
Blackwater tank cap stainless steel
Lightning, stairs, ceiling sun deck
Some Air containment between the glass (in front of the wheel house) and the frame is present.
Fridge in the wet bar area, Dometic

Inner hull

Bilge pumps, one mid under galley floor, one between engines, one under stateroom floor with automatic watch as well as manual activation via the breaker panel.
Audio visual alarm for water in the engine room bilge
Manual pump for engine room bilge
Harsonic ultrasound transducer 240v

Life safety system & equipment

Fire extinguisher with thermal release, with approved content new 2023
Hand fire extinguisher under seat in the cockpit
Fire blanket in the galley
Bilge pumps x 3
First aid kit
Re-boarding ladder for hull sides
Re-boarding ladder for bowsprit, Boat system 4 step foldable new 2019
Wipers x 3
Hand steering rod

LifeSaver LS 101
Life raft 6 people not serviced
Dinghy, Rib270 Great White with E-propulsion 1.0 electric motor and charger new 2023

Other features

Wash machine Electrolux 3 kg new 2023
Pioneer DEH-4600BT Stereo bluetooth with 8 loud speakers and control box
Smart TCL TV 32” google tv, new 2025, with an electric TV lift
WiFi router Teltonika RUT950, industrial router new 2023
Fixed Davits on the swim platform for the dinghy
Electric winch 240v for raising the dinghy mounted in the storage compartment new 2025
2 x Tables for the flying bridge that can be joined together to seat 6-8 people, One table can be moved to an extra bracket by the sofa in the wet bar area
Kuuma Stainless Charcoal BBQ rail mounted by the wet bar new 2025
Cushions are in very good condition
All lights has been changed to LED
Vacuum cleaner
Ironing board and iron
Barometer, Clock, Temp/hygro
Safety box
Flagpole and flagstaff
Deck Chairs
Ropes, Rock wedges
Boat hooks
Ball fenders black x 4
Ball fender white x 1
Clothes lines with pegs
Rubbish bins, buckets, brushes etc
Tools, bolts and nuts, screws assorted
Cables different sizes
Cleaners, polish, soap etc

Location & conditions

Location for inspection : Stockholm area or as agreed when traveling Scandinavian waters
Conditions : The boat will be sold with an extensive amount of equipment for maintenance and cruising. Normally this is not the case but the owner lives abroad and have no wish to remove anything from the boat. Since 2019 when the present owner purchased the boat they have been living on board for 4 months every summer season and travelled the Scandinavian waters and canals. The boat has gone through many important updates during these years and is exceptionally well equipped and maintained. Records of all service and purchases are

available as well as access to winter storage south of Stockholm in Navekvarn at Swedeport Marina.

This coming winter the Volvo Penta diesel injectors will be cleaned and tested, this work will be paid by the seller.
Any assistance and advice when preparing and launching in the spring will of course be given.

A comprehensive video is available on YouTube, filmed in three sequences, the first a walk through and the second a detailed view of different functions and areas to give a remote viewer a good picture of the condition and features of this boat and the third a more technical view into different functions.
